

It is stated that no fewer than 3,000,000 gallons of whiskey are lost to the distilleries every year through evaporation. So there is something to be said for a Scotch mist at all.

Nature's Laws

Any Looseness of the Bowels Is Always Dangerous

Any Looseness of the Bowels Is Always Dangerous

To check these unnatural discharges there is a remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 88 years. It is rapid, reliable and effective in its action. A few doses is generally all that is required to give relief.

Change Hardly Noticeable

American Inch Unit Now Two Months Less In Length

The American inch unit of measurement has lost two-millionths

former length in order that
measuring in the United States

England may be done on the basis. The new definition of the is now 25.4 millimetres—a difference of about one-eighth inch in a mile.

compared with the former American standard. This minute alteration

made necessary by modern precision manufacturing and the confusion arising from varying standards in two countries. Gauge blocks now made conform to within one millionth of an inch.

of an inch. Both the United S

bureau of standards and the national physical laboratory of England certify industrial gauges on the basis.

Test Was Satisfactory

First test of the Dymaxion three-wheeled automobile built on stream-lining principle of fast boat was held at Bridgeport, Conn.

before 3,000 spectators. With it
inventor and designer, Buckmi

Fuller at the wheel, the automaton attained a speed of 70 miles an hour over the one-third mile cement road at Sensitive Park.

"If I marry you," said she,

"Will I let you?" he replied. "I
est, I'm depending on it!"

Canadian Attitude Regarding U. S.

Interesting Summary Given Commission On International Relations

"There are at least 25 reasons why Canadians dislike Americans," says a report by Rev. Dr. Frederick K. Fyvie, secretary of the Congressional and Christian Commission on International Relations, which is to be presented at a national conference today by the commission at Lake Simcoe, N.H.

Among the reasons are: "He (the Canadian) does not understand why we refused to join the League of Nations of which Canada is a member."

"He thinks we have been hypocritical about liquor control."

"He compares the lawlessness in our cities with the orderliness of his own."

"He thinks we are trying to put something over on him in the American Union and he will not join it."

"He is growing fearful of our vast investments in Canada, though formerly he welcomed American capital and to some extent does now, but he hears agitators at home warning him that we always follow our trade with our guns—and see what he is in Nicaragua."

"He is not sure that he is in favor of the constant flow of brilliant men and women from Canada into the United States, where they make their permanent home and achieve eminence in many lines."

"He does not like our assumption that we have the only democratic government on earth."

"That above all else he feels that 'in case of war between England and the United States the position of Canada would be disastrous'."

Proud Of Their Country

Scots Object To Any Name Other Than Scotland

If you want to rouse the ire of Sir Robert Horne, just refer to Scotland as the "upper end of this island." That gets his cheeks up. When a member-spoke of Scotland in those terms, Sir Robert jumped into the fray to say, in the House of Commons, at Westminster:

"When the honorable member describes Scotland as the 'upper part of this island' I venture to make my protest. Robert Louis Stevenson was very indignant with a correspondent who addressed a letter to him and put on the envelope, 'North Britain'."

"He said: 'Whatever we are, we are not North Britain. We are the country of Scotland, and I enjoy you in future to address me as residing in Scotland, whenever I am there.'"

"The 'upper end of this island' is a term of insult through which I refuse to accept on behalf of my native country."

The Scots are proud of their country and they want the world to know it.

Book Holiday Trip In Taxi

London Bank Clerk Finds It Great Way To Travel

Determined never to ride again in motor coach, A. M. Menzies, a London bank clerk, took his family of three for a taxicab ride of 2,000 miles. The trip was to his native town of Aberfeldy and other places in Scotland, and the taxi fare was \$39. After searching among the taxi stands Menzies found a driver who agreed to take Mr. and Mrs. Menzies for 4½¢ a mile the first 1,500 miles and the cost of the gasoline for the remainder of the trip. On their return to London all the Menzies declared it a great way to travel. Mr. and Mrs. Menzies were in an auto accident in which two men were killed some time ago. This prompted his anti-auto vow.

Setting Own Fashions

The general process of remodeling Germany according to Nazi ideals has not stopped short of fashions. Reich and Dalme, the Father of Germany, has founded a reich's institute for German fashions which aims to develop a class of German designers, tailors and creators of style, who will make Germany independent of other world fashion centres.

Emblem Of German Nazis

Ancient Symbol Believed To Have Origin In Asia

Many people are wondering what is the real meaning of the swastika, the emblem of the German Nazis which has been in the news recently. It is not, as the Nazis themselves believe, a Nordic symbol. It is one of the most ancient symbols, and has appeared all over the world. It was known in Old Japan and to the Incas of ancient Peru. One of its variants—the three-legged version—has been adopted as the emblem of Sicily—and of the Isle of Man. So far as can be ascertained, the swastika is Asiatic in origin. It occurs in Hindu pottery, found in Mesopotamia, of a date that takes us back to the first days of civilization. From there it spread to Troy, and to ancient Crete, where it was associated with the worship of the snake goddess. In India it is called "swastika" when the branches turn from left to right, and "matswastika" when they are in the opposite direction. In the first case, it represents the spring-time or rising sun; and in the second, the autumn, or descending sun. The symbol is also a symbol of light, life and prosperity; the second is unlucky.—London Answers.

Italy's "Beau Geste"

Visit Of Aerial Armada Viable Sign Of Friendship

Sound vision, careful planning and judicious execution were exemplified in the flight from Italy to Chicago made by the twenty-four Italian flying boats with their crew of ninety-six. The clockwise routing, which was the point after point was reached made the event go like a well-planned parade.

The "beau geste" has always been dear to the Italian heart, but no Italian Government ever made a more striking gesture than did Benito Mussolini in sending this great aerial armada to America. While it may be an expedition of military aircraft, the hopeful sign in the friendship and fellowship which the exploit inspires in the American people is hardly a thought of its having any military significance.

It is over four centuries since another Italian crossed the Atlantic by the sea, tedious method of a sailing vessel and found an America whose existence he had not suspected.—Christian Science Monitor.

Value Of Lighting Rods

Properly Installed System Offers Ideal Safeguard To Farmers

Most smiters at any reference to the lightning rod because of the widespread opinion that it is a hoax like the gold brick. But the fact that farmers in the 180's were troubled by alkali winds from the west is the truth that the properly installed system advocated by insurance, conservation and scientific bodies everywhere offers a real safeguard. In Ontario, one of the worst lightning provinces of Canada, losses from this cause were cut 75 per cent. in 1935 primarily through the outstanding educational work of Deputy Fire Marshal George P. Lewis. A properly installed and maintained conductor is the most efficient machine yet invented, with an effectiveness rated at 98 per cent.—Saturday Evening Post.

Argentina is considering the creation of a national grain commission.

Diets electric rail car excursions are popular in England this season.

Many textile mills in Cuba are operating at capacity.

Danish Capital Is Lively

Copenhagen Has Shown No Sign Of Winter Depression

Refreshing sights are seen in Copenhagen, the only one of the world's notoriously sprightly cities which has not become a whiff less sprightly since the rainy days of '29.

The Prime Minister, Herr Stauning, sitting in a night club after midnight, perhaps the only prime minister in the world who doesn't leave the cares of state to Copenhagen.

Copenhagen's streets are still parade-dashing along to Copenhagorstrade at 5 p.m. A ravishingly beautiful cotton-blend, a deeper army cap-top in khaki, a mailman with a flashing red coat, two police officials in blue and gold guard, a half-dozen pink-cheeked schoolgirls, a portly woman with a Moroccan shawl riding in a basket, attached to the handlebars and jiggling at a great dance on the sidewalk. College students wearing glasses and carrying brief-cases tread elegantly past the powdered and rouged ladies highly colored and rouged.

Tivoli, which in any other country would be just another amusement park, is now a place where Copenhageners anxious to waste their money on fortune wheels, and a very attractive booth where one throws wooden balls at plates and sees them tumble.

The traditionally lively Copenhagen newspapers, dividing their front pages between the world economic conference and a sensational newspaper case, the only law in which seems to be that no one is aware whether a murder really took place.

The canal at Gammel Strand full of fishing boats and floating fish, and in which swim thousands of flounder and eels. The famous row of fishermen, cravily skimming live eels and shouting at the secondary customers.

Rust Resistant Wheat

Four Strains Of This New Rust-Resistant Wheat

Little probability of new rust-resistant wheat being distributed to farmers for next year's crop is seen by Dr. C. H. Gouldin, in charge of the wheat-breeding program at Ontario Research Laboratory, Winnipeg.

Four strains of rust-resistant wheat that outyield Marquis under average conditions in the west are being increased, but the amount to be harvested this fall would hardly justify any distribution. Dr. Gouldin cautions.

These wheats vary in time of maturity from practically as early as Reward to later than Marquis. They have Emma, a plant with hulled seeds, related to wheat as a grandparent, McPadden's H44, a standard variety to Hope, being the result of a wheat-millet cross.

The new wheats are selections from the offspring of H44 and Marquis and Reward. Milling tests have been made of small samples, but they have not yet undergone milling tests on a commercial scale.

Had Miraculous Escape

Man Rescued From Victoria Falls In South Africa

Major E. A. T. Dutton, chief secretary of Kenya colony in Africa, is a great swimmer. He was rescued from the swirling flood of Victoria Falls and escaped alive. He was sighted when he fell into the cauldron known as "The Devil's Bath." The eddies carried him near some rocks, and with the aid of people who had rushed to his assistance he scrambled to safety. He was the last person of all those concerned in the incident. Major Dutton is an athlete and popular in Kenya. The Victoria Falls are a mile wide and 420 feet high. It is the first of the first person to be rescued from the swirling flood of Victoria Falls and escaped alive. He was sighted when he fell into the cauldron known as "The Devil's Bath." REPLACE WORN TRUCK TIRES

NOW, before the hauling season starts in earnest, put on new Firestone tires and be sure that there will be no costly delays from tire trouble.

Firestone Truck Tires have everything to lower hauling costs and give increased mileage. Gum-Dipped cords eliminate danger from blowouts. Two Extra Cord Plies under the Trend make the tire stronger and safer, while the Non-Skid Tread grips the road at all times. These extra values give you 25 to 40% longer tire life at no extra cost.

Have your nearest Firestone dealer put on a set of Firestones before the rush starts. He has a complete stock and gives quick service. See him today.
